Dear Sir/Madam,

RE: LETTER OF REFERENCE FOR DAVID SALIMA

I am pleased to recommend David Salima for admission to the programme for which they have applied at your institution.

I had the privilege of teaching David for over three years in the Department of Mathematics and Statistics at [University Name]. During this period, I found David to be a committed, responsible, and academically capable student who demonstrated a genuine interest in learning and personal development.

David possesses excellent written and verbal communication skills. They are able to express ideas clearly, participate meaningfully in academic discussions, and complete assignments to a good standard. Their calm disposition, strong organisational ability, and disciplined approach to study enable them to work effectively both independently and as part of a team.

In addition to their academic qualities, David is respectful, dependable, and willing to take responsibility. They relate well with lecturers and fellow students and have consistently demonstrated the maturity and determination required to succeed in a demanding academic environment.

Based on David's academic performance, character, communication skills, and commitment to further education, I have no hesitation in recommending them for admission to your university. I am confident that David will make a positive contribution to your academic community and will approach their studies with diligence and professionalism.

I would be grateful if you would give their application favourable consideration. Please feel free to contact me should you require any further information.

Yours faithfully,

Mr Gibson Duke
Lecturer
